## PROFILE

Hello! I'm Raúl, a graduate in Computer Engineering from the Escuela Superior de Informática de Ciudad Real, which belongs to the University of Castilla-La Mancha and has the EURO-INF quality seal. Specifically, I specialized in Information Technologies.

During my training, I have acquired a solid grounding in different areas of computer science. My main skills are focused on software development, and I know programming languages such as **Java**, **Python** and **C#**. In addition, I have worked with tools such as **Git** for project version control. My interest in mobile development has led me to explore the **Flutter** framework, which allows the development of cross-platform mobile applications. In addition, I also have basic knowledge in web development, using tools such as **HTML**, **CSS** and **JavaScript**.

Currently, as a junior software developer, I am working with modern technologies such as **React**, **Node.js** and **Kafka**, strengthening my skills in distributed application development and real-time connectivity.

As a junior software developer, I would like to face new challenges and apply my knowledge in professional environments.

## PROFESSIONAL EXPERIENCE

**Software Developer Junior**

**GlobalSuite Solutions**

Aug 2024 - Act.

I am currently part of the development team at GlobalSuite Solutions, contributing to the creation of new functionalities and optimisation of business applications.

- Development of functionalities for company projects
- Process improvement using technologies such as Node, React, Kafka and MongoDB.
- Participation in the complete software development cycle.

**Full-Stack Developer**

**GlobalSuite Solutions**

Feb - Jul 2024

Carrying out the FORTE program (curricular internship + thesis) at GlobalSuite Solutions whose objective is to build a distributed system based on Kafka that allows customers to connect to the GlobalSuite ecosystem in a homogeneous and controlled manner.

- Back-end development with Node and NestJS
- Front-end development with React and NextJS
- Use of technologies such as Kafka, GitLab, and NoSQL databases like MongoDB

## SKILLS

### Full-Stack Developer Compra Ideal SL

Jul - Oct 2023

Extracurricular internship as a Full-Stack developer in a solid and recognized ecommerce company dedicated to the manufacture of rest articles (ventadecolchones.com).

- Back-end development with PHP and Java
- Use of front-end technologies such as HTML, CSS, JavaScript, jQuery
- Integration with third-party APIs
- Writing optimised queries for relational databases (MySQL)

## VOLUNTEERING

### Website development and maintenance AFAL Bolaños

Jan 2024 - Act.

Active and professional development and collaboration in the maintenance and updating of functions for the web solution of the Alzheimer's and Dementia Family Association (AFAL Bolanos).

## EDUCATION

### Computer Engineering University of Castilla-La Mancha, Spain

2020 - 2024

Intensification in Information Technology

## CERTIFICATES

### English Level B1 Cambridge University Press & Assessment

Sep 2019

## COMPLEMENTARY TRAINING

### JavaScript School 2023 - From Zero to Master in JavaScript

Udemy. July 2023. 15.5 hours

### LaTeX essential for the preparation of Degree Thesis, Thesis and other academic documents

University of Castilla-La Mancha, Spain. February 2023. 20 hours

### Competence for autonomous learning - Self-coaching

University of Castilla-La Mancha, Spain. May 2023. 15 hours

### Team management skills - Conflict resolution

University of Castilla-La Mancha, Spain. February 2021. 15 hours

### **Entrepreneurship competence - Entrepreneurship**

**University of Castilla-La Mancha, Spain.** June 2021. 25 hours

### **Information and digital competences - Learning how to search for and use information**

**University of Castilla-La Mancha, Spain.** September 2021. 25 hours

## **PORTFOLIO**

On my GitHub page you can find some of the projects I did during my degree in Computer Engineering. These works have allowed me to learn and become familiar with some technologies such as C# and Flutter, as well as to apply my knowledge to develop software solutions with a simple and intuitive user interface..
